RESOLUTION

A RESOLUTION CONFIRMING SPECIAL ASSESSMENT LIST FOR 2007 SEAL COAT IMPROVEMENT, CITY OF DICKINSON, STARK COUNTY, NORTH DAKOTA.

BE IT RESOLVED by the Special Assessment Commission of the City of Dickinson, North Dakota, as follows:

1. The Special Assessment Commission has reviewed the proposed assessments for the 2007 Seal Coat District for the purpose of allocating the costs of the improvements in said district, in accordance with the statements of costs thereof furnished to the Special Assessment Commission.

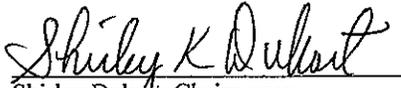

The Special Assessment Commission has determined the particular lots and parcels of land which, in the opinion of the Commission, will be especially benefited by the seal coat work for which the assessment is made. The Special Assessment Commission has determined the amount in which each of the lots and parcels of land will be especially benefited by the work for which such special assessment is made, as listed for the district, with corrections indicated, attached to and incorporated as part of the minutes of this meeting. The assessment amount entered opposite each such lot and parcel on the attached spreadsheet does not exceed the benefits thereto, including all expenses incurred in making the assessment, in publishing necessary notices in reference thereto and including appropriate administrative fees in making the assessments. The City has caused such special assessments and a notice of hearing of such assessment to be published as required by law. At the time and place stated in the said notice, the Commission met and heard all parties interested therein and their agents who desire to be heard upon objections to any said assessments and duly considered the same.

2. It is hereby further found and determined that certain alterations of said assessments list have heretofore been made to the assessment list, pursuant to North Dakota Century Code S40-23-11.
3. Said assessment list as found, determined and corrected by the Commission stands approved as corrected by this Commission and is hereby confirmed.

Dated this 7th day of September, 2007.

BE IT RESOLVED by the Special Assessment Commission of the City of Dickinson, North Dakota, that:

1. The Special Assessment Commission has reviewed the proposed assessments for the Phase II 2008 Development Impact Fee District in Prairie Hills 5th Addition for the purpose of allocating the costs of the improvements constructed in said districts, in accordance with the statements of costs thereof furnished to the Special Assessment Commission.

David Walter expressed some concern about the downtown tenants complaining about the garbage that is left behind in the evenings from the kids in the parking lot which is located across from ESP, next to Burlington Northern. Pam Kostecky, business owner, is questioning the use of the monies that are collected for the parking lot assessment and where it is being utilized and could it be utilized more efficiently by cleaning up the parking lot which is mentioned above. Mr. Walter told Pam to come up with some solutions and bring them before the Special Assessment Board. Discussion had taken place in regards to have police officers stop by the area occasionally and visit with the kids. These monies collected for the downtown parking lot is used for striping, etc.

A note of interest – the old Wells Fargo parking lot is now being utilized mostly by American Bank Center's employees.

FISHER EAST SIDE SECOND SUBDIVISION

City Engineer Craig Kubas presents Fisher East Side Second Subdivision Development Impact Fee project figures. Kubas states this project was completed in phases. The project was for street, water and sewer. Kubas states the developer has paid over one half of the project costs.

Carter Heiser who owns 1765 I-94 Business Loop needs some clarification about special assessments and questions why the entire subdivisions is in the assessment district. He feels the special assessments should be divided equally in Block 1.

President Gary Bleth stated the previous owner of Heiser's property did know special assessments would be applied to his property but didn't inform Mr. Heiser. Mr. Bleth stated the City could not complete the street at this time.

Mr. Heiser is very confused of why the entire division is not divided equally. Mr. Heiser also states the 1/3 of his property is unusable because of the water running into his property.

City Engineer Craig Kubas states the water problem issue is one the City's is aware of. Mr. Kubas states he will work with Mr. Heiser on the water drainage issue.

Attorney Christina Wenko, from Mackoff Kellogg Law Firm represents Mr. Heiser and also is concerned about the drainage onto Mr. Heiser's property and feels the assessment should be adjusted for the water drainage. Ms. Wenko states the value of the property is reduced due to the water issues. She is hoping the City will take this problem into consideration when figuring the special assessments.

City Attorney Matt Kolling states abatement of the property taxes should be reviewed if Ms. Wenko would like review this for a deduction in property taxes. Mr. Kolling states Special Assessments do not have offer any decrease should there be issues with the property.

Skip Rapp, Representative for Denny's Electric also has issues with the drainage onto their property. He states Denny's Electric does not receive any benefit from Carroll Street. He also states when 16th Street is complete this would only benefit the apartment building.

President Bleth states not only half of the street can be developed. He does agree that 16th Street would have been a nice addition to the project but the City was limited in the project funds.

Mr. Rapp states again if 16th Street was completed then Denny's Electric would benefit but feels this assessment is a limited benefit. He also feels the assessment should have been calculated according to square footage.
