Kolling states if any business or licensee that sells to a minor would have an administrative fine of first time offence of \$150, 2nd offense \$250 and \$500 for a third offense. A suspension of license could also be administered. E. <u>COBORN'S INCOROPATED ON-SALE/OFF-SALE LIQUOR LICENSE</u>

City Administrator Shawn Kessel states an additional liquor license will be added. Advertising had taken place and sealed bids were opened and Coborn's was the only bidder at \$185,000 which was the minimum bid. The City has done a background check and it is recommended the bid be awarded as to Coborns. Kessel states the funding will go into the general fund. Initial indications would be that Coborns would have the store opened prior to 2014. The City's ordinance states the company has one year from date of award to open for business.

Commissioner Oltmanns would like to state the City's stance. Common sense states there is no building that can be built from scratch to existing in one year as this is quite a tight time frame. Oltmanns feel that Coborns and Wal-Mart would like to utilize their licenses but due to the timely manner of building this is impossible.

City Attorney Kolling states the ordinance for additional liquor license does state one year from the time of the granting of the license. After one year the license would revert back to the city.

President Johnson would like to amend the ordinance to allow 6 month increments of extensions.

Administrator Kessel states Wal-Mart has been in communication with the City's Planning Department and as of the last update they want to renovate it more.

Commissioner Jackson does not want to wait 2 years before the issuance of a license. If the liquor license holder can build something within a year, give them a 6 or 12 month extension but Jackson would like to see some activity before a long period of time has passed.

Administrator Kessel will take these comments into consideration and draft an ordinance to see progress within one year and if they cannot meet their deadline to request an extension.

F. <u>DIAMOND ACRES SETTLEMENT AGREEMENT</u>

City Administrator Kessel states in 2007 a land transaction occurred which involved city land. It included land that the City provided an option to purchase extended over a 5 year period of time. The option to purchase was exercised in 2012 but the purchaser went with a different real estate company CRE. The City paid CRE for the realtor fees but should have paid Everett Real Estate for the realtor fees. The two realtors did not come to an agreement so an agreement has been provided tonight.

City Attorney Kolling states in real estate sold through the City a 6% commission is paid on the land. The commission on this property came out to about \$7,000. In the agreement CRE would repay a portion of the commission and in turn the City would pay 4% commission to Everett Real Estate. This transaction would result in an 8% commission on this sale. The City does have some responsibility.

Johnson states this resolves an issue for the City and two of our realtors for the past two years.

MOTION BY: Carson Steiner SECONDED BY: Gene Jackson To approve the settlement agreement between the City, Everett Real Estate and Continental Real Estate.

DISPOSITION: Roll call vote...Aye 5, Nay 0, Absent 0.

The Department has had 109 inspections and 2 tours and lectures. The Fire Department also participated in Roughrider Days parade, Family Fun day and other events. Hydrant testing was performed; the City has approximately 1200+hydrants. Sivak states 80% of the staff are trained in auto extraction.

Chief Sivak also presents for approval the Energy Impact Grant Application requesting funds for the purchase of a Quick Attack Pumper. The cost of this equipment is approximately \$225,000. This vehicle would allow effective response to grass fires, vehicle fires and structure fires. Chief Dassinger also presented the Energy Impact Grant Application to apply for a Lenco Bearcat armored truck to be used for a tactical team vehicle. This vehicle would protect the team as well the equipment.

Commissioner Jackson feels these applications should be prioritized.

City Administrator Kessel states that the City has not prioritized these and usually the City has the luxury of choosing which project is needed.

Chief Dassinger states currently the tactical team does have a vehicle that was leftover from surplus. It is not armed and not the most reliable vehicle. Dassinger states this vehicle has been used in outlying communities and has been shot at. Again this vehicle would allow protection for the team, equipment and citizens.

MOTION BY: Shirley Dukart SECONDED BY: Klayton Oltmanns To approve the motion to proceed with the Energy Impact Grant Application for a Lenco Bearcat.

Soehren states originally this was two projects but now has been combined to one project as it is part of the master plan.

The report shows to date there are 384 new building permits with a value of \$134,458,015.66. Courton discusses the building permits, multi-family housing along with fees.

City Administrator Kessel is trying to hire a private contract for plan reviews and that would be the City of Grand Forks to assist Dickinson. Kessel explains the current staff does spend a lot of time out in the field.

7. <u>CITY COMMISSION</u>

None.

8. PUBLIC ISSUES OF CITY CONCERN NOT ON THE AGENDA

Citizen Keith Anton raises a question of how far someone has to be away from a building in order to smoke. This item will be reviewed by City Attorney Kolling and Mr. Anton will be contacted with the information.

City Engineer Soehren does visit about the grass clippings issue. There have been some issues with citizens leaving their grass clipping bags beside their garbage cans and this should be thrown in the can unless the can is full. He would first like people to take their clipping for recycling but if not they should try and get them in the containers.

President Johnson feels citizens should not be allowed to pile anything next to their container. He feels this should be avoided so the rear loader equipment can operate. He states a general rule of thumb should be to fill the container first.

Commissioner Jackson feels individuals should purchase a mulcher for their grass.

Commissioner Dukart discusses the need for the City to have a business license. She states she has been contacted numerous times questioning the businesses in our area.

Administrator Kessel states that this subject has been brought to the Commissioners previously and it was voted not to issue licenses to businesses.

Commissioner Jackson feels this would not be feasible.

President Johnson would also be hesitant to support another license just so people know what businesses are in Dickinson.

City Planner Courton states that where he worked before the City did issue licenses to all businesses and this is how they dealt with zoning issues, multiple tenants and building codes. He states these licenses were a mechanism needed in order to do the work they did.

Administrator Kessel stated the ad for 4 unrelated individuals ran in the newspaper on Saturday.
